3CX: Video Conferencing

3CX supports video conferencing and can be used collaborative meetings, allowing for screen sharing and face-to-face interaction. You can join or host meetings via your web browser or dedicated mobile apps.

Download the 3CX Video Conferencing app

Please note that video conferencing on your phone uses a separate application additional to the standard 3CX phone app.

Platform	Application Name	Download Link
Android	3CX Video Conference	Google Play Store
iOS (Apple)	3CX Video Conference	Apple App Store

Create an Ad-hoc (Instant) Video Conference

- Login into the 3CX Portal using your extension number or email address and password.
- Initiate the ad-hoc meeting via the "Meet" option in the left-hand menu.
- See the official documentation for detailed instructions.

Schedule a Video Conference (via browser)

- Login into the 3CX Portal using your extension number or email address and password.
- See the official documentation for detailed instructions.

Schedule a Video Conference (via 3CX app)

- Conferences can also be scheduled via the 3CX application.
- See the official documentation for Android and Apple iOS.
